

Before I signed a contract with Lifetime Estate Liquidators, I had no idea how I was going to liquidate an entire household of items, some of which I knew were of considerable value. Upon my first meeting with Kathy, I knew that she was knowledgeable and had all the professional contacts I needed to get the maximum value. After signing the contract, she immediately went to work, organizing, advertising, and pricing. She even arranged to have unsold and donated items picked up and removed from the premises. She was very considerate of family and friends to ensure that everyone's concerns were addressed. In just a couple of weeks, the sale was on and I am very pleased with the results. Lifetime Estate Liquidators saved me so much time. My only regret was that I had not contacted them sooner. Kathy and Anita were professionals from beginning to end and come with the highest of recommendations. It was such a pleasure doing business with them.
