Dear Kathy & Anita

I am writing to say thank you for the magnificent job you did in organizing and executing the great sale of the contents in our home last weekend. The kids and I will forever be grateful to you both for the wisdom and guidance you provided us in this "long march" to get our lives in order and help us on this most difficult first-step in wrapping up our lives in this place, so we can move on into our new places and get our lives back solidly onto the tracks we're traveling down now.

The kids and I also so appreciate the respect and compassion for us and our home and our lives and our circumstances in this move.

I also appreciate that your compassion and "caring" for our feelings, and your hardball dealing with the people who came through our home was done so professionally and respectfully. You didn't hesitate to take on our "project" knowing how large our job was and the unique circumstances around our having to sort through "three housefuls" of furniture, art, antiques and collected items from around the world over the past 23 years. Your "directorship" got me off my backside and forced me to really sort it all out between just "stuff" and those things that really mattered to the kids, and I. Thank you for that!

Once again, please, please, please feel free to use me or my name as a recommendation for you, for Anita, and your company to whomever, whenever, and wherever you may be inclined the need to. The kids and I will forever consider you both as a part of our family given the "secrets" you shared through our process of the endeavor. We are complimented to consider you both now our friends.

Sincerely, and with ever so much appreciation...
