Dear Kathy,

When my husband and I made the decision to move into a much smaller home, my first concern was, "What am I going to do with all our furniture?" Then my realtor gave me your name and after our first phone conversation, I immediately felt a sense of relief. I appreciated your prompt return of my phone call, your willingness to meet with me at the house and your professional, yet friendly approach to managing the sale. You fully understood our needs and the time constraints of needing to empty the house before the closing. You and your competent staff took care of every aspect of the sale from pricing to advertising to directing traffic. The sale went off without a hitch and I was so pleased to be able to sell a houseful of furniture and personal items. Thank you for managing the sale on our behalf. I would be pleased to recommend you and your company to anyone who is considering an estate sale.

Regards,  
Sally Stebbins
